#### The “Gentleman” meets the “Smiler / Laughter”

If you have the pleasure of going on a date with either one of these types of people you have hit the dating jackpot!

#### First let us learn about the “Gentleman”

Here's a man that's definitely on the endangered species list. If you're lucky enough to date one he will treat you with respect and courtesy. This type of guy is very rare these days, so if you date one you better snatch him up!

If your attracted to a Gentleman you better start acting like a Smiler / Laughter because that's what he's often attracted to. Though he can be found anywhere, you may want to consider going to church or a ballroom dance class, because that's where many gentleman congregate. These types of guys can sometimes seem a bit old fashioned but don't let this disillusion you. They know how to treat a woman right!

#### Let me give you a few examples of his gentlemanly actions.

- He will always open all doors for you
- He will hold the umbrella while walking with you
- He holds your hand or waste while crossing the street
- He can be very romantic
- He's a good listener
- He will take care of you
- He treats you with respect

*“So if you're ready for a respectful relationship...  
It doesn't get any better than a Gentle-Man.”*

Ok so now that you have 2 types of compatible personalities the next thing to figure out is how to turn on your date. Well let me give you a few clues to help all of the "Dating - 101" students out there!

### Turn Ons For Guys

**Friendliness** - A girl with a friendly smile and approachable personality makes a guy feel comfortable, and this is a big turn on for a guy!

**Femininity** - Many guys are attracted to girls who act and dress feminine. Skirts, long hair, high heels, and nice nails are a feminine attraction and believe me guys will take notice!

**Relaxed, laid-back, Positive Attitude** – Most guys in general are attracted to a laid back positive personality. This makes a guy feel comfortable and it's a subconscious turn on.

**Sense of humor** – Everyone likes to laugh. So if a girl has a sense of humor and a friendly smile, this will make a guy open up and approach you. Laughter eases tension and brings attention to you in a positive way!

**Smoking Hot Body** - Well I guess most guys and girls are attracted to this! It's just human nature. So get to the Gym!

### Turn Ons For Women

**Reliability** – Women love guys that are reliable. It's a subtle turn on for them. If you tell a girl you're going to do something... then do it!

**Good dancer** - Start heading over to your local dance studio because women love good dancers! Think "Dancing With The Stars"... Salsa anyone?

**Sense of humor** - Everyone loves to laugh and when you have them laughing, you'll have them in the palm of your hand! Hint: Comedy Clubs are a great first date!

**Good Cook** – If you cook her a delicious romantic dinner she'll be melting in your soufflé ...I mean arms. So fire up the oven Emeril...Bam!

**Good kisser** – If you're lucky enough to get to 2nd base and you know how to smooch, then you're in! A good sensuous kisser is a huge turn on for most women...so guys, practice your pucker!
